Faculty Coordinators

Mr. G.Karthik reddy Asst. Prof CEER/ECE
Mr. K.Raju, Asst. Prof CEER/ECE
Mr. B.BalaKrishna, Asst. Prof CEER/EEE

Project Objective

User-friendly mobile application for students preparing for software interviews.

Existing systems

- IndiaBIX
- CV Engineer
- Glassdoor

Issue

Software Interview Preparation Challenges

- Difficulty in finding comprehensive software interview resources.
- Different company interview styles and specific questions.
- Overlook of HR interviews in many technical preparation resources.
- Difficulty understanding company principles and values.

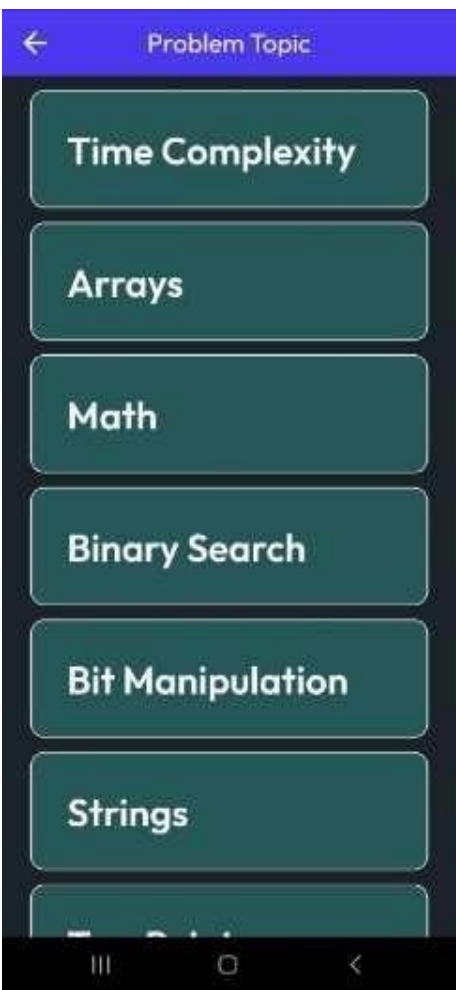

User requirement

- The app should have a user-friendly interface with easy navigation.
- A community section for users to discuss, collaborate, and share experiences.
- A feedback system for users to provide their opinions and suggestions.

Gaps in the existing system

- Code and Video Solutions Consistency
- Interview Etiquette Guidance
- Company Principles for Insight
- Integration of Community Discussion

Methodology

- Understanding target audience and project goals.
- Analyzing existing solutions for a unique selling proposition.
- Creating a blueprint for app's architecture, user interface, and features.
- Building the app according to design and plan.
- Ensure app is bug-free and meets quality standards.
- Creating a community within the app.
- Continual improvement based on user feedback.
- Promoting the app to reach a wider audience.
- Creating comprehensive documentation for users and developers.
- Planning for scalability and providing resources.
- Evolving the app to stay competitive and meet changing user needs.
